Dear Sir:

This paper is submitted in response to the Office Action of May 28, 2004, to further highlight why the application is in condition for allowance.

Please amend the case as listed below.

Amendments to the title and a listing of the title begin on page 2.

Amendments to the claims and a listing of the claims begin on page 3.

Remarks begin on page 19.

IN THE TITLE:

The examiner asserts that the title of the description is not descriptive, and a new title is required that is clearly indicative of the invention to which the claims are directed. The examiner also believes that the title of the invention is broad. In view of the examiner's comments the title of the invention has been amended to:

“A Switchable Hot-Docking Interface For A Portable Computer for Hot-Docking The Portable Computer To A Docking Station.”
